# Stepping Up & Out

## E. Manual HIGH SCHOOL

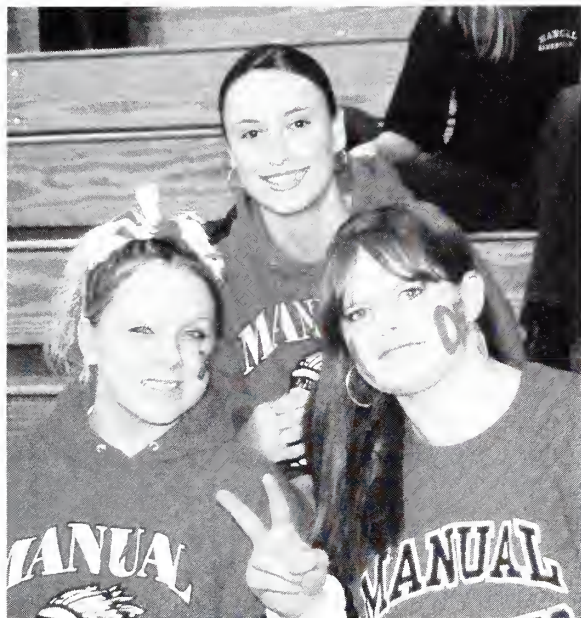

From drag queens to drama queens,  
Manual was anything but boring in 2004.

Prom was a blast for many,  
while spirit week was just one big laugh.

The end is near  
and it was an awesome year.

# Red & White

## SPORT YOUR COLORS

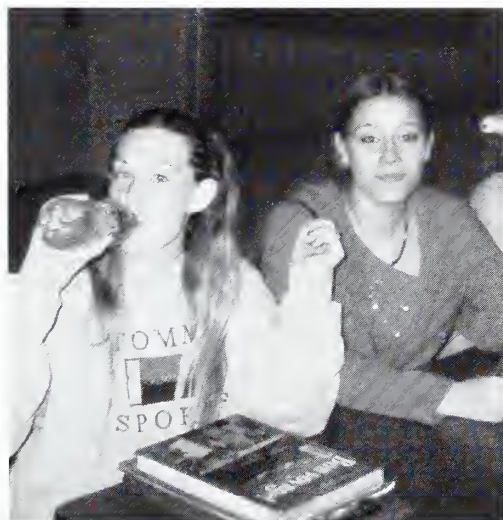

Red and White are more than just colors to Manual students. They are statements that say we will win tonight's game because we have the power to intimidate our opponents. It makes us stand out from everyone else as we are stepping up and out.

## 2004

### LIKE NEVER BEFORE

For Manual students it's safe to say the best part of the day is lunch. It is a time to chill, talk, and eat. There is never a quiet lunch period while students are clowning around keeping Manual hype. 2004, a year like never before!

## Step

### INTO MANUAL

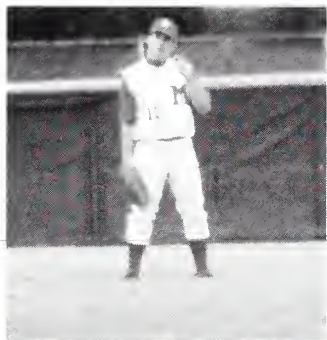

While many are eager to step into Manual, just as many want to step out. Step into a world of fun and games that lasts four years. For those who have finished, step into a world called LIFE.

Alex Windhorst played baseball for three years. Before high school, he had never played, and, now, he plays the outfield. "I chose to play so I would have more options in college."

Baseball players Jamie Pilk, David Hoagland, Michael Featherston, and Michael Query get involved when it comes to baseball. "Being able to play and to have fun doing it is my motivation," said Pilk. "A moment of glory is when I do the best that I can and win the game," Hoagland said. Sometimes it's hard for teammates to work together, because of their attitude. "What it comes down to is team work, and how well we can work together during a game," Featherston said.

# How Do You Show Your School Spirit?

From guys in dresses to hall decorations, spirit week is anything but boring. Starting off with hat day on Monday, it's the one day out of the year teachers let students wear hats.

Opposite day took over on Tuesday, it allowed students to dress as the opposite sex. "I dressed up on opposite day, because I thought it was fun." Antonio Simmons said.

Wednesday started off with halloween paint and costumes as the school dressed up for celebrity/superhero day.

The twins of Manual walked through the halls Thursday for twin day. "Jennifer and I got our outfits from the store to dress up for twin day," Ashley Smith said.

As sophomore, junior and senior classmates stayed after school on Thursday to participate in the decoration contest, the junior hallway won for most school spirit. To finish the week off, red and white flooded the halls on Friday for red and white spirit day. The day ended with a pep rally in the gym during pd. 11 and the homecoming game and dance later that night.

Compliments, along with confusion, were the reactions of many teachers and students on twin day for juniors, Jennifer and Ashley Smith. Every year they have dressed up for spirit week, this year was no different. "Most people just stared at us, and a few people mixed us up," Jennifer said.

*Red/White Spirit*

Inspired by school spirit, Tanaviah Hinton plans and puts together the junior hall decorations on the 2nd floor. "We showed the most school spirit," Hinton said.

Showing her poster she made for the seniors, senior Amy Bell is happy to be helping. It took about three days of planning and getting things together for the seniors, "It was nice to be involved with clowning in a good way," Amy said.

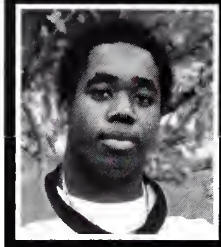

From curling irons to lipstick, Antonio Simmons struts his stuff on opposite day. "People said, I was an ugly girl, but it was funny," Simmon, who borrowed his outfit from his girlfriend, Antonio said.

Hours after school let out, juniors, Jennifer Ross, Ashley Smith, and Rachel Wilkins helped decorate the hall for the class hall decoration contest. "We did have some ideas planned out, but as we went along, other ideas came into our minds, and we just put them all together," Ashley Smith said.

Usually dressed up as a tomboy, Jackie Smith struts her stuff at the prom. "I felt a little uncomfortable, but, overall I had a lot of fun," Jackie Smith said.

Prom was well worth the money that Alicia Osborne spent since she had the date of her dreams. "I went with Allen Traxler who was the prom king and Valedictorian," Alicia said.

Tiffany Peircefield and Allen Traxler, both dedicated to school, finally get a night off and enjoy every moment of it. "Prom will be a night I will never forget,"

Every girl wants to be swept off their feet by prince charming. That's what Daniel Sahm did to Tammy Long. "I love to dance even more when I am raising the roof," Tammy Long said.

## He is Mine!!!

Excited about prom, bummed when it ended. Erica Dunham attends her senior prom with a friend Jeremy Willson by her side. "It was sad because everything was ending," Erica said.

Prom is a time that students will never forget, at least for most people. "Prom... was wonderful, we laughed, we danced, we made memories. It was a time I won't forget," Andrea Graves said. Yes, he is taken too!

Tina McClintock and her boyfriend have been together for two years. He accompanied her to the prom. "Hands off ladies, he is MINE," Tina McClintock said.

# A Moment Like This

Kenny Coffee was stunned when they called Brandon Libunao's name for "2003 Jr. Prom King." "I was just glad that it was one of my friends that won," Coffee said.

Lauren Stigger makes the picture perfect prom queen. She is smart, pretty, and a person that everyone loves to be around. "It was an honor to be "2003 Prom Queen," Lauren said.

Saying goodbye is hard. "It is easier just to laugh and talk about the future than the past," Dawn Mathis said.

Tiesha Vaden has one goal; to collect as many toys as possible. A group out to collect toys for children for Christmas, has helped many less fortunate kids. "I think it is a good program for kids." Her favorite thing about it was seeing how many toys they could collect.

Peter Samboy, has been working with a group of other kids for Toys for Tots. "I enjoyed being in it," Samboy said. "What I really hated was people not bringing toys. I collected a fair amount of toys. Don't hate, participate."

Andrea Graves worked to help kids who might not have Christmas. The main thing she enjoyed was "knowing this may be the only toys that they get for Christmas and it's because we helped them. The toys will be going to the guardian's home," Graves said. "The hardest part was getting people to care."

Hanging with his friend, Peter Samboy enjoys being apart of the planning in senior activities. "All my senior friends are in senior council so I joined to be able to do the activities together as a senior," Samboy said.

Providing a fun and easy way to spend your after school activities the Battle City is the place to be. "I joined the club because the club allows people that play the card games to meet and play without getting in trouble with teachers," Mike Klemmer said, head chairman of the club.

Recently a small theft problem has found itself among the Battle City, but thanks to the recovery, the club is still battling. "The worst part about the club is someone you trust steals all your cards," Mike Klemmer said.

"The best part about the club is how well the people get along and how well people actually work together," Brian Cooper said as he watched the game between Steven Flike and Keagan Humbles.

From left to right: Steven Flike, Brian Cooper, Mike Klemmer, Keagan Humbles and DeMarkes Shackelford all gather around, starting the afternoon out with music bumping and decks of cards everywhere. "I decided to join to have fun, meet new people and make use of my social time," Brian Cooper said.

"If I could change anything about the club I would change the popularity and population of the club. I would encourage people to join and make it more amusable."

The Colorguard group performed in the Veteran's Day Parade in Downtown, Indianapolis. They did a great job and represented our school very well by showing appreciation to the veterans.

The ROTC class went to Morgan Monroe to do a day hike activity. Many of the students enjoyed it although it was hard work. Much effort was needed to be able to complete the hike.

The rifle team has compitions the first few months of school. Practice makes perfect so they do a lot of it, hoping to win their compitions.

## STAR GIVING TREE    Made by: Melinda Steele & Jennifer Fuller

### STAR Christmas Giving Tree

Some students don't think that giving toys is a good idea, but that's all wrong for Ms. Scheske. She came up with the idea of the STAR Giving Tree, three years ago. STAR students make and put ornaments on the tree with something written on it to buy. Then, another student picks an ornament off of the tree and buys what's written on it. Anybody can give toys, but mostly STAR students and teachers give toys.

The toys and gifts that are received are sorted by the different families of STAR, and the students that go to Manual are the ones who benefit from them. "It's just us two making stuff and wrapping it, along with two sponsors and the student body providing the presents," Chairperson Jennifer Fuller said.

This year, STAR has helped out about 18 families, which is about 40 kids. STAR students aren't the only ones who help out. There's a parent involved, too. Beth Majors, mother of STAR student Risa Lucas, helps deliver the toys and gifts to the families. Melinda Steele, Co-chairperson, said, "I think the STAR Giving Tree is a good program for kids to help other kids."

## STAR Academy

"STAR Academy is important because it provides opportunities for students to learn about the career possibilities that the world's largest job market has to offer, develop leadership skills, learn and experience the value of their own education. The blending of FFA with the curriculum allows students to practice and demonstrate what he or she learns in the classroom in after school activities." - Mr. Crover

### Freshman Work Day

One of the days activities include the human knot. Students had to grab each others hands, and try to end up in a complete circle without letting go of the students' hands. Working with the freshmen, is sophomore, Nathaniel Osborne. "I had fun, because I got to teach the freshmen teamwork," Osborne said.

# The a-MaZE-ing teamwork activity

Mr. Wooten's STAR freshmen class, including students Brittany Underwood, Jamell Washington, and Joni Wood, all had fun while finding their way through a maze. It was an activity where they had to have a partner tell them where to go. "It helps us listen to people," Wood said. There were bricks and chairs that they had to go around. Some students ran into the bricks and chairs, but everyone had fun participating in this 'trust activity.' "I like activities like that, because they are fun and always have some kind of moral," Underwood said. Washington's favorite thing about being in STAR is, "Learning more, Mrs. Lord, plus I feel that the teachers are helping us to become smarter!"

# Yearbook

"I dislike being the only guy in yearbook, but sometimes it has its advantages," Chad Teepe said. Yearbook can be stressful, at least Teepe has 20 girls to help him out.

Brittany Harp and Ashley Linville have been best friends since their junior year. "Ashley is a great editor and an even better friend," Brittany Harp said.

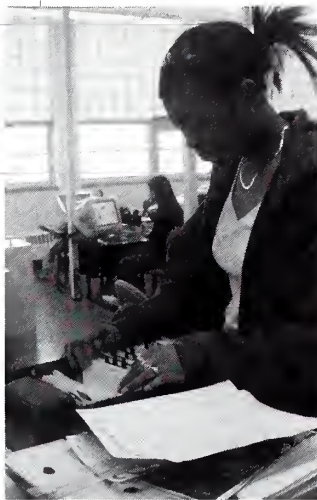

"I would encourage anyone who works well with computers and other people to join the yearbook staff," Jessica Saenz said. Anyone with the right amount of dedication is able to join.

Yearbook can be very stressful for most people. "I usually get stressed when we have a deadline because I tend to procrastinate," Kendra Wilson said.

Janay Gray is next year's managing editor. "Being an editor will help me to improve my journalism skills," Gray said. The editor's job is tough, but with the right dedication it can be achieved.

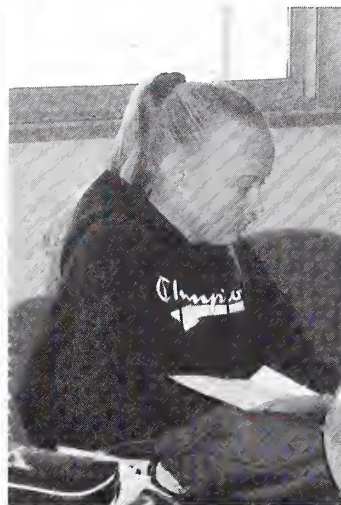

Rikki Micks is also next year's potential editor. "I feel it is going to be hard, but since we have such an outstanding teacher I feel that next year's yearbook is going to be great," Rikki Micks said. "If I wasn't graduating this year I would, without a doubt, be on the yearbook staff again," Shanika Harris said. "I love being able to be this year's editor along with Ashley Linville. It makes me feel like I have a reason to come to school. The staff is great and we have a wonderful teacher that helps us whenever we need her too. Thank you to Ms. Oliver and 2003-2004 yearbook staff," Brittany Harp said.

Allen Meadows is the Editor-N-Chief. He found out first hand what frustrations teachers face every day. "Students in class do not finish their assignments on time and so we don't get the newspaper published."

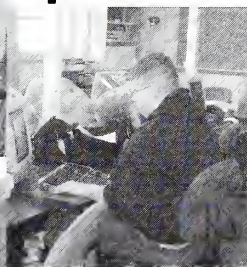

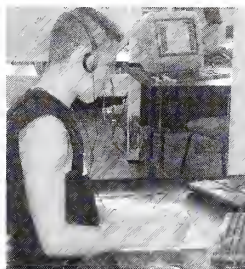

Stephanie Sumner is a first year newspaper staffer. She focused on design this year and was a page editor. "I have learned a lot of stuff on the computer that I did not know before. Computers are something I enjoy and I always want to learn more."
